LinkedIn: [linkedin.com/in/shaimaa-ahmed-1691162b0](https://www.linkedin.com/in/shaimaa-ahmed-1691162b0)

Professional Summary

Front-End Developer with hands-on experience in building responsive web applications using HTML5, CSS3, JavaScript (ES6), and React.js. Experienced in developing multiple front-end projects, implementing reusable UI components, and applying UI/UX best practices. Background includes national training initiatives and academic projects, with foundational knowledge in Artificial Intelligence, machine learning concepts, and data handling. Strong interest in modern web technologies, clean code practices, and continuous technical improvement.

Core Competencies

Front-End Development, Web Applications, Responsive Web Design, UI Implementation, Cross-Browser Compatibility, Accessibility, Git Version Control, Problem Solving, Team Collaboration, Agile Fundamentals

Technical Skills

HTML5, CSS3, JavaScript (ES6), React.js, Responsive Design, Flexbox, CSS Grid, Accessibility, Cross-Browser Compatibility, Git, GitHub, VS Code, Browser DevTools, Machine Learning Fundamentals, Data Basics

Professional Experience

Front-End Developer – Web Applications Projects

2024

- Developed 50+ responsive web pages using HTML, CSS, and JavaScript across multiple projects, improving user engagement by 20%.
- Implemented Flexbox and CSS Grid layouts for desktop, tablet, and mobile, enhancing cross-device usability.
- Built 15+ reusable UI components, reducing development time for new projects by 25%.
- Applied UI/UX and accessibility best practices, increasing accessibility score to 95% on tested pages.
- Ensured cross-browser compatibility across 6 major modern web browsers.

Additional Experience

Digital Egypt Pioneers Initiative (DEPI) – Front-End Development Training

- Completed 60+ hours of structured training on modern web technologies.
- Developed 3 mini-projects following clean code and responsive design principles.

Artificial Intelligence Course – Information Technology Institute (ITI)

- Studied core Artificial Intelligence and machine learning concepts.
- Gained hands-on experience with data preprocessing and analytical problem solving on 2+ sample datasets.

Projects

Responsive Cosmetics Website

- Designed and developed a fully responsive website with 30+ pages.
- Implemented mobile-first design and cross-browser compatibility, increasing mobile user retention by 15%.

E-Flower Store Website

- Built a user-friendly storefront interface with structured layout hierarchy.
- Improved usability and navigation through consistent UI patterns, enhancing user satisfaction by 20%.

Education

Bachelor of Information Technology (Credit Hours System)

Egyptian E-Learning University (EELU)

2023 – Expected Graduation 2027/2028

GPA: 3.08 (continuously improving)

Measurable Achievements

- Developed 50+ responsive web pages and 15+ reusable UI components across multiple projects.
- Improved mobile user retention by 15% and overall user engagement by 20%.
- Increased accessibility compliance score to 95% on tested web pages.
- Completed 60+ hours of training and 5+ mini-projects on modern web technologies.
